

ANNOUNCEMENT

2026 DSATools™ Oceania User Group Meeting

Powertech is pleased to announce the 2026 DSATools™ Oceania User Group Meeting (UGM). This annual event provides a forum for Powertech and the DSATools™ users to discuss and exchange ideas for the development and applications of DSATools™ software. Attendees will receive an overview of Powertech's latest software product features, see demonstrations of real-world applications, and learn about new and upcoming developments. The meeting will also feature presentations from users who will share their experiences and practical applications of DSATools™.

Our first year's Oceania User Group Meeting will be hosted in **Virginia, Queensland, Australia**.

As part of the event, attendees will have the opportunity to participate in **Powerlink Queensland Control Center**. During the tour, Powerlink will present the reliability requirements for operating the Queensland power system.

Please RSVP at [2026 DSATools™ Oceania User Group Meeting](#) by **September 30th, 2026**. Note that the attendance for the Powerlink control center tour is limited, so we encourage early registration. All control center tour participants will be subject to security clearance by Powerlink and will be required to provide their name and identification in advance of the tour.

If you wish to share your experience in applying DSATools™ by presenting at the UGM, please contact us at dsainfo@powertechlabs.com.

Venue: *Powerlink Queensland's Innovation Hub*
Address: *33 Harold Street Virginia, QLD 4014, Australia*
